SUMMARY

Systems-oriented operator with experience building and deploying data-driven systems in real-world environments, working directly with leadership to turn ambiguous problems into execution. Skilled at designing AI-native workflows and automations, with a track record of translating complex operational data into decisions that non-technical teams can act on. Looking to join a fast-moving company where embedding AI into how the business runs is the job, not an afterthought.

EDUCATION

University of Pennsylvania – Philadelphia, PA **Expected Graduation May 2026**
• Candidate for B.S.E. in Systems Engineering | Minor in Mathematics | Concentration in AI and Data Analytics **GPA: 3.5**
• Relevant coursework: *Big Data Analytics, Statistics, AI Systems, Microeconomics, Theory of Networks*

PROFESSIONAL EXPERIENCE

Black Wharton Consulting – *AI Systems & Customer Delivery Consultant* | Philadelphia, PA **October 2023 - January 2025**
• Worked directly with client leadership to define problems, design solutions, and drive execution across technical and non-technical teams.
• Built decision systems from unstructured operational data, generating \$200K+ in savings and 8–12% revenue lift.
• Identified operational gaps through stakeholder feedback and iterated on live systems to improve adoption and output reliability.
• Built real-time dashboards that cut reporting latency 30% and gave teams faster visibility into operational metrics.

University of Pennsylvania Residential Operations – *Operations & Data Systems Manager* | Philadelphia, PA **May 2024 - August 2024**
• Deployed planning systems for daily decisions across 10K+ residents, improving allocation and operational coordination.
• Led cross-functional rollout of data workflows, including training, documentation, and ongoing issue resolution.
• Monitored KPIs across 10K+ residents, identified allocation bottlenecks, and redesigned tracking systems to improve accuracy by 20%.

Aureon Ventures – *Founder & Operator* | Trelawny, Jamaica **June 2021 - May 2022**
• Built and operated logistics and tutoring systems from scratch across Jamaica, owning pricing, routing, and service workflow.
• Increased unit profitability 25%+ and generated 3M+ JMD in revenue through pricing and routing models based on real-world demand.
• Recruited, onboarded, and managed staff across business lines, owning performance feedback and operational coordination from day one.

Everglades Farms — *Operations Strategy Intern (CPO Office)* | Trelawny, Jamaica **June 2020 - August 2020**
• Analyzed operational workflows to identify breakdowns and design process improvements that were implemented by leadership.
• Built decision models for pricing, fulfillment, and demand focused on making outputs usable by the people making the calls.

PROJECTS

AI Operations Copilot - *Agent-Based Decision System* **August 2025 - September 2025**
• Built an AI-powered decision system translating operational datasets into real-time, plain-language diagnostics for non-technical users.
• Designed for reliability in production-like conditions by testing failure modes across varied datasets.
• Iterated based on user feedback to improve adoption and usability in real-world workflow.

Contributor Pipeline Simulation - *AI Data Operations* **May 2025 - September 2025**
• Built a five-scenario operational simulation modeling contributor throughput, acceptance rates, and quality failures across teams.
• Designed pivot-based dashboards to surface bottlenecks, batch rejection patterns, and quality gaps across the contributor pipeline.

Repayment Risk Simulator - *Credit Risk Engine* **August 2025 - September 2025**
• Developed predictive models on 2M+ loan records to identify borrower risk patterns and support operational decision-making.
• Designed segmentation frameworks to translate model outputs into actionable insights for both technical and non-technical stakeholders.

EXTRACURRICULARS

Wharton Global Youth Program – *Intro to Personal Finance TA* | Philadelphia, PA **August 2025 - Present**
• Delivered financial education sessions to 700+ high school students nationwide while managing a full academic, athletic, and professional schedule.

Penn Varsity Track and Field - Philadelphia, PA **August 2022 - Present**
• Earned Second Team All-Ivy in recognition of academic excellence and outstanding performance in the 400m, 200m, and sprint relays.

Munro College Track and Field – *Varsity Team Captain* | St. Elizabeth, Jamaica **September 2014 - June 2019**
• Set a national age-group record of 52 seconds in the 400m, unbroken for over 10 years; won gold at the national championship.

SKILLS

- **Technical:** Python, SQL, Tableau, Excel, Streamlit, Git, Postgres, Applied Machine Learning, Data Pipelines
- **Operations & Analytics:** Decision systems, workflow optimization, Claude, workflow automation, executive communications
- **Stakeholder & Delivery:** Client implementation, stakeholder communication, workflow adoption, cross-functional rollout
